SOFTWARE ENGINEER | JAVA BACKEND DEVELOPER

Warsaw, Poland • +48 517 935 745 • jonasz.sojkaa@gmail.com • [linkedin.com/in/jonasz-sojka/](https://www.linkedin.com/in/jonasz-sojka/) • github.com/sonaszsojka

PROFESSIONAL SUMMARY

Software Engineer and Computer Science graduate (PJATK) with 3 years of hands-on Java development experience (1 year professional), building REST/SOAP integrations and enterprise solutions at VHV Gruppe with Guidewire, Spring Boot, PostgreSQL, and AWS. Previously worked as an IT Business Analyst, with a practical understanding of business requirements alongside the development work.

CORE COMPETENCIES

Java & Spring Boot Development • REST & SOAP API Design • System Integration • Database Design (PostgreSQL/SQL) • Cloud (AWS) • Microservices • Clean Code & Best Practices • Agile Development • Requirements Analysis & Solution Design

PROFESSIONAL EXPERIENCE

Junior Software Engineer

Nov 2025 – Present

VHV Gruppe — Warsaw, Poland

- Designed and implemented REST and SOAP APIs in Java/Spring Boot for various system integrations, including ESB.
- Refactored legacy integrations and built cloud-compatible components in Spring Boot as part of the cloud migration.
- Developed new features for the insurance domain on the Guidewire platform (Gosu/Java).
- Optimized batch processes and built Java and SQL-based scripts for large-scale operations affecting 5M+ records.

IT Business Analyst

Mar 2025 – Nov 2025

Omecon Sp. z o.o. — Warsaw, Poland

- Documented business requirements for a nationwide deposit-return system with UML and Enterprise Architect.
- Coordinated delivery via Jira and Confluence in an Agile (Kanban) environment.

PROJECTS

GamiLife — Gamified Productivity Backend — Java 21, Spring Boot 3, PostgreSQL, JWT/OAuth2, Docker. Co-developed a multi-module backend with authentication, task management, and gamification features.

EDUCATION

Information Management — Specialization: IT Systems Architecture, Master's degree

Oct 2026 – Present

Polish-Japanese Academy of Information Technology — Warsaw, Poland

Bachelor of Engineering in Computer Science — Specialization: Databases

Oct 2022 – Feb 2026

Polish-Japanese Academy of Information Technology — Warsaw, Poland | Diploma Grade: 5.0/5.0

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- AWS Certified Cloud Practitioner (CLF-C02) — AWS, 2026
- Building with the Claude API — Anthropic, 2026
- Model Context Protocol: Advanced Topics — Anthropic, 2026

TECHNICAL SKILLS

Programming Languages: Java, Gosu (Guidewire), Python, SQL

Backend: Spring Boot (Data, Security, Web), REST & SOAP APIs, Hibernate, RabbitMQ, OAuth 2.0, JWT, JUnit 5, Mockito

Databases & Cloud: PostgreSQL, Microsoft SQL Server (PL/SQL, T-SQL), AWS

Frontend: Angular, TypeScript

Development & Tools: Git, Docker, Bitbucket, IntelliJ IDEA, Maven, Postman, Jira, Confluence, Copilot CLI, Claude Code

LANGUAGES

Polish (Native, C2) • English (Fluent, C1, Daily professional use) • German (Basic, A2)
